## DENIES LANE INDORSES PINKHAM

Congressman Humphreys of  
Mississippi Cables Name  
Merely Submitted for  
Consideration

WHITE HOUSE STATEMENT  
SENT AS REASSURANCE

Local Democratic Candidates  
Do Not Credit Dispatches  
That Lane Has Made  
Recommendation

Secretary of the Interior Lane has not recommended L. E. Pinkham for governor, but only submitted his name to the president for consideration, according to a cablegram received at noon today by Attorney E. M. Watson from Congressman Benjamin G. Humphreys of Mississippi. Congressman Humphreys, personal friend and strong supporter of Watson for the governorship, cabled this message after some rapid work in Washington.

"White House admits only Secretary Lane submitted Pinkham for consideration. Both senators active."

The reference to the senators means that both members of the upper house, Senator John Sharp Williams and Vandaman, are working in Watson's behalf.

DEMOCRATS WHO WERE IN  
WASHINGTON SAY LANE  
NOT TO RECOMMEND

Two dispatches from Washington to the effect that Secretary of the Interior Lane has recommended L. E. Pinkham for governor of Hawaii are not credited here by leading Democrats and friends of the prominent Bourbon candidates for the position. On the other hand, it is asserted in some Republican quarters that the dispatches are undoubtedly correct, and that Representative Kent of California has won a signal victory for Pinkham, whom he has been supporting strongly for a number of weeks.

All the previous information that had reached Hawaii was to the effect that Lane had made no recommendation for governor and was likely to make none, and dispatches that he had

## HAWAII BOOMED BY SWIMMERS ON TRIP TO COAST

Coast Sportsman Wants to  
Bring California Cracks  
Here in February

"Hawaii certainly got some good advertising out of the trip of the Honolulu swimmers to San Francisco, and as a result, not only will the visit boom our plans for a big international swimming meet here next February, but will bring a great many tourists to Hawaii," said W. T. Rawlins, president of the Hui Nalu, this morning upon his arrival from the coast.

Rawlins and the Hui Nalu swimmers returned on the Sierra. Duke Kahanamoku, who smashed all kinds of records in his coast swimmers, stayed behind to visit at the home of Mr. and Mrs. Robert Foster in Sonoma county. The Fosters visited here and became personal friends of the champion swimmer. Robert Kahanamoku, another member of the team, will probably go in a big vaudeville act on the Panhandle circuit with a number of Hawaiian singers and dancers. He had received the offer before the Hui Nalu left for Hawaii and Rawlins thought he would probably take it.

"Duke is not going into vaudeville, in spite of the offers they talk of," said Rawlins today. "He intends to keep his amateur standing and to compete for Hawaii. I have heard nothing since we left, but I feel certain that he is not thinking of going on the stage. Bob Kana is not going into an act of his own. He will join a troupe of singers."

"Our boys won so many events in San Francisco that the coast swim-

## Pinkham O. K.'d-Kent Opposition Developing

[Special Star-Bulletin Cable]

WASHINGTON, D. C., July 21.—It was impossible today to secure from Secretary Lane an authoritative statement as to whether or not he has recommended Pinkham for the governorship, as he has left on his tour. President Wilson says nothing. Congressman William Kent of California declares that Lane has recommended Pinkham. Pinkham is apparently under consideration. Opposition to him is developing.

C. S. ALBERT.

## ALBERT HORNER HOME AND BUBBLING WITH OPTIMISM

Policy of Wilson is Given O. K. Including Removal of Tariff, Currency Reform And "Insidious" Lobby Probe

That President Wilson's administration and fiscal policy have the approval of the people at large is the opinion that Albert Horner, former sugar planter, brings back from a visit to Washington. He returned in the Sierra this morning. Mr. Horner furthermore thinks that, in the long run, free sugar will not have so disastrous an effect upon the Hawaiian sugar industry as most people here have been apprehending.

"I met Republicans and Progressives," said Mr. Horner to a Star-Bulletin reporter, "who told me that if they had to choose again they would vote for Wilson instead of either Taft or Roosevelt, for whom they respectively voted last year."

"These people have confidence in the President because he is carrying

## FIGHTING CHANCE FOR SUGAR DUTY UNTIL ROLL IS CALLED

Democratic Senators Refuse To Be Bound by Drastic Resolution Pledging Support of Every Feature of Bill and Rejecting Amendments Proposed by Republicans

By C. S. ALBERT

[Special Star-Bulletin Correspondence]

Washington, D. C., July 10.—The sugar situation as left by the caucus of Democratic senators is more encouraging than at any time since the Ways and Means committee took up the task of downward tariff revision. This does not mean that some degree of protective duty will remain on sugar, but the outlook is more hopeful than the most optimistic anticipated. A good fighting chance will continue until the final roll call is taken on the Underwood-Simmons measure.

It was found absolutely impossible to bind Democratic senators by a drastic resolution pledging them to support every feature of the bill and re-

## JAPANESE ENVOY WILL MAKE REPORT OF FRIENDLY SENTIMENT

Dr. Jutehi Soyeda, former vice-minister of finance with the Japanese imperial government, and former president of the Industrial Bank of Japan, who was sent by the Associated Chambers of Commerce of Japan as a commissioner to investigate conditions in the United States incidental to the introduction in the last California legislature of the anti-alien land bill, alleged to be discriminatory against the Japanese people, and his colleague, Tadao Kamiya, honorary chief secretary of the Tokyo Chamber of Commerce, arrived in San Francisco after

a tour of six weeks of the various sections of the country, a month of which was spent in the east, says the San Francisco Chronicle.

In a statement given out at the Fairmont Hotel last night, Dr. Soyeda and Kamiya indicated the tenor of the report which they will make to the Japanese chambers of commerce, and which will be filled with the Japanese central government for its information.

The commissioners say they will re-

## PETRIE ENTERS THE LISTS

Either peace or war is going to "rule" at the meetings of the supervisors hereafter, and in the absence of peace Supervisor Lester Petrie, chairman of the roads committee, is going to carry the fight into the enemy's camp. For after keeping his peace for a good many months, and giving the two biblical precepts—the heaping of coals on the head and the turning of the other cheek—a very good try out, Supervisor Petrie decided upon a new course this afternoon at the meeting of the board, and as a result of it he gave Supervisor Pacheco, leader of the opposing faction, to understand that he would no longer endure "the covert insinuations and continuous antagonism" of his opponents without retaliating.

Angered at the remarks of Supervisor Pacheco over an ordinance just submitted to fix the grades and sidewalk lines on King street from Kapaeha bridge to the military reservation of Kakaui, Petrie rose in the meeting and declared that he would no longer tolerate such opposition.

"You have done nothing but fight. In the time we have been here, petty fighting has been heard at all times. I will no longer stand for it," declared Petrie hotly. "I do not propose to have my every effort inter-

(Continued on page three)

Carter Will Welcome Guthrie

George W. Guthrie, the new ambassador to Japan appointed by President Wilson, will arrive in Honolulu tomorrow on the Mongolia, enroute to Japan, where he will assume the duties of his office. During the brief visit of Mr. Guthrie, he will be entertained here at a luncheon at the Young Hotel, the Sons and Daughters of the American Revolution acting as

(Continued on page three)

## LEAHI HOME SOEELY NEEDS FINANCIAL AID

Dr. A. N. Sinclair Accused the Board of Supervisors of Delay Without Cause

"The delay of the supervisors in passing upon our application for a monthly appropriation is costing the lives of tuberculosis victims." So stated Dr. A. N. Sinclair, superintendent of the Leahi Home this morning, who caused a request to be made about five weeks ago that the board of supervisors come to the financial assistance of the home.

"The dilatory action of the supervisors is working a great hardship on several sufferers from tuberculosis who have no place to go, and as a consequence are living without receiving any treatment, some of them with a foot in the grave already," continued Dr. Sinclair.

"The home is running behind every day. We are in great need of money, and yet the supervisors are continuing to delay, apparently without good reason. I do not wish to be put down in the position of a kicker, but with conditions as they are I feel justified in asking that they do something for us at once."

The request from the Leahi Home for a monthly appropriation when received by the city fathers was turned over to the health committee, who conferred with Dr. James Wayson, city and county physician. Figures were submitted by Dr. Wayson to show that the home was not in need of money from the city and county, but Dr. Sinclair later pointed out that the calculations were not accurate and renewed his requests for more money for the home.

The ways and means committee of the supervisors has taken a hand in the matter, by way of assisting the health committee. Chairman Wolter, of the latter committee states that a report will be submitted soon, and intimates that in it the committee will recommend that the appropriation request of the home be granted.

## ELOPERS HERE ON HONEYMOON

Wireless to Sierra Scores Over Dan Cupid in Secret Marriage Pact

Honolulu, ever popular as a mecca for timely victims of Cupid's darts who wish to spend the first few weeks of their wedded life out of the reach of enthusiastic friends and relatives, and especially after they have faced the minister without the knowledge of fond parents and mammas, again harbors a young couple who, after successfully carrying out a neatly arranged trick, were quietly married in San Jose, Cal., and then departed for this city, arriving in the Sierra this morning.

When Fritz Tubbs Henshaw, 22 years old, son of Justice Frederick Henshaw of the supreme court of California, first saw pretty Miss Mary Gwendolyn Casady Henderson, who lived with her uncle at 6048 Clermont avenue, Oakland, he lost his heart, and after getting acquainted with the young lady, who is just nineteen years old, soon discovered that the impromptu love affair was not one-sided. After many little conferences and plans, they decided that they could never live without one another and Henshaw suggested that they get married. But that was where the rub came in. How would the relatives of the couple take the match? Casting this thought to the winds, they decided that they would elope, Henshaw

(Continued on page three)

## 'MANCHUS' MUST SPEND PART OF THEIR LEAVE TIME ON BRINY DEEP

Another poke in the eye for the haughty Manchus. Now even his leave is curtailed, and officers in Hawaii who come within the "three peacock feather" class will have just about 40 per cent of their short leave knocked off, on account of a war department order received this morning.

According to the new ruling, "Manchu" officers who take leave must date their time from the moment they leave their troop, battery or company, until the time that they return to their command. Heretofore it has been the custom to count the time spent in the journey to and from the mainland as detached service, so that an officer on, say, two months' leave, would get a full two months; or even more on terra firma. If he reported at San Francisco at the expiration of his leave he was placed on detached service there until the sailing date of his transport.

Now all this is changed, and the unlucky "Manchu" must spend at least two weeks of his leave on the briny. The law says that he must be actually on duty with his command to draw pay, and there is no getting around this ruling.

## NEW MEXICAN CRISIS IMMINENT FATE OF HUERTA SOON DECIDED

PAPAL GUARDS MUTINY  
DEMANDING LESS WORK

A member of the Papal Guard, which organization has mutinied.

[Associated Press Cable]  
ROME, Italy, July 21.—Carrying out their threat of last week the Swiss papal guards mutinied today. They demand lighter duties and the right to frequent saloons. Last week the guards declared that they would not work unless Captain Glassman, substituted for Colonel Reponi as commander, was relieved. Captain Glassman's discipline is said to be particularly rigid.

## BANANA CLAIMS WILL BE CONSIDERED BY COMMISSION TOMORROW

A meeting of the banana claims commission will be held in the senate chamber of the executive building tomorrow, according to the announcement made by Secretary Drake of the commission this morning. The claims have all been filed and are in order for consideration by the commission. The last day to file a claim was July 16. The commissioners have not held a meeting sooner, due to the absence of Chairman Rawlins, who returned this morning.

Following the meeting tomorrow, meetings will be held several times a week and claimants will be given an opportunity to be heard. The task of determining upon a settlement basis promises to be a difficult one and will be the first the commission will attack. With claims aggregating \$242,623.74 filed and an appropriation of \$40,000 to meet them, there will probably be some difficulty in arriving at adjustments which are equitable. There are 794 claimants.

## NAVY CIVIL ENGINEER HAS REPORTED FOR DUTY

Assistant Civil Engineer Gaylord Church was an arrival on the Sierra this morning, and later reported for duty at the Honolulu naval station. He comes to relieve Assistant Civil Engineer C. A. Bostrom, who will soon leave for station on the east coast.

The new member of the local naval staff has been stationed at Troy, N. Y., under technical instruction. Mr. Bostrom, who has been in Honolulu for more than a year, came here from Guam, and has completed his tropical tour.

Consul Frank W. Mahin, of Amsterdam, notes the Dutch raw sugar factories produced in the 1912-13 season 310,000 tons, valued at \$15,577,500. In the previous season 268,000 tons were refined. The average yield per acre is placed at \$61. Twenty years ago the annual sugar production was only one-tenth what it is now.

## President and Cabinet Learn From Dispatches That Situation In South Is Tense -- Japan Embarrassed By Mexico's Profuse Demonstrations-- Alliance Is Impossible

[Associated Press Cable]

WASHINGTON, D. C., July 21.—The government today learned from dispatches from Mexico City that a new Mexican crisis is imminent. The situation has grown tense and much danger of wholesale anti-American demonstration exists. It is expected that Gen. Huerta's fate will be decided within a fortnight.

## MEXICO'S FRIENDLINESS EMBARRASSES JAPAN

TOKIO, Japan, July 21.—Mexico's remarkably open show of friendly sentiment and her official demonstrations of the last few days have played the Japanese government in an embarrassing position. The newspapers affirm that an alliance between Japan and Mexico, which it is believed, is in the minds of the Huerta leaders, is impossible because it would appear to be due to bellicose intentions at this time. They say that such an alliance would be a serious tactical mistake at this time.

## WILSON'S NICARAGUAN POLICY APPROVED

WASHINGTON, D. C., July 21.—President Wilson's policy with regard to interference in Nicaragua has found strong senate support among the influential men of both parties. The proposals favored by Wilson do not bind America to guarantee Nicaragua's present outstanding debts.

## Battle in China Imminent

[Associated Press Cable]

PEKIN, China, July 21.—Fifteen thousand Cantonese are advancing to meet the loyalist troops coming from the north. A big battle is imminent.

## Standard Oil Pays Dear

[Associated Press Cable]

GREENVILLE, Tex., July 21.—The Standard Oil Company of New Jersey paid \$600,000 into the state treasury as a compromise of the suit to bar it from the state for violating the law.

## Bulgaria Accepts Peace Terms

[Associated Press Cable]

BUCHAREST, Roumania, July 21.—Bulgaria has accepted the peace terms offered by Roumania, Serbia and Greece jointly. It is expected that formal agreements will shortly be signed.

## WORLD'S NEWS CONDENSED SPECIAL MAIL SERVICE TO STAR-BULLETIN Home and Foreign Dispatches Giving World's News at a Glance.

Police Commissioner Kuhl of San Francisco declares that the notorious famous "Barbary Coast" of that city should be completely wiped out.

A French inventor and aviator, Percin, took his son with him on his first flight in a new machine. The aeroplane turned turtle, crashed to the ground, the gasoline tank exploded, and the two were burned to death.

The government has declined the request of the French government to allow some of its ordnance officers to inspect the processes of American powder manufacture, because France will not reciprocate.

Dr. Lowell, president of Harvard University, recently took a trip in Germany in the new Zeppelin dirigible.

Snowfall in New Mexico is a freak of the weather seldom recorded in this state at this time of the year.

A widow, who supported herself and four children by typewriting in the Los Angeles county offices, has just been left \$1,000,000 by a brother who died in Australia and left his fortune to her.

Major Cookburn, one of the three Canadians who received the Victoria Cross for valor in the South African war, died at Winnipeg recently from a kick in the stomach from a mule.

A sneak thief stole jewels worth \$20,000 from the safe of the proprietor of a patent medicine in San Francisco. Mrs. Dillingham had carelessly left the safe open.

The entire Southern Pacific railroad system may be tied up owing to a strike of conductors and trainmen who cannot get satisfactory answers to the questions they have put to railroad officials.

At a recent White House council it was practically decided to have a permanent board of mediation and conciliation to be added to the Federal government to deal with all labor disputes.

Guatemala and Honduras have just selected sites for government buildings at the Panama-Pacific exposition. The Bulgarian troops accuse the Greeks of firing towns containing non-combatants, and also butchering their captured enemies.

Chicago's new women voters may succeed in electing a woman "Hinky Dink," Mrs. Annie Blasi being a strong favorite for a city office in the tenement district.

Chief of Police White of San Francisco has closed every incorporated gambling den in the city and declares

they will be raided by the police every time a gambling joint is opened.

The organization for the abolition of capital punishment is urging a Governor Johnson to stay the hangman's hand of murderers no wonder sentence and death until its initiative petition is signed by many thousands shall have placed before the state electorates.

The striking waters cook the objection tinders in St. Louis have say that it "dis the governor for troops to other district," them against the police.

The Gould railroads are to be sold, and B. F. Busch of the Den, fixing the Grande and Missouri Pacific, had been has also been made president of the Western Pacific. Mr. Jeffrey and Schackels, former president and vice-president of the Western Pacific, have been retired.

In a collision between three interurban cars near Los Angeles, twelve people were killed and over fifty injured.

Some Louisiana sugar planters have announced that they are going to turn their sugar plantations into coffee plantations if the new tariff goes through.

Miss Mignon Hopkins of Philadelphia does not intend to abandon her breach of promise suit against Governor Sulzer of New York.

The Gluezer club of New York is a new national organization to fight suffrage.

Henry S. Graves, chief of the United States forest service, is to study conditions in the Chugach national forest of Alaska.

Samuel A. Kean, a Chicago banker and bond dealer has just died. He was famous for his practice of holding a brief religious service at his bank at the opening of each business day.

A hundred page indictment charged the former warden of Sing Sing prison with neglected duty in almost every possible way.

There was serious rioting in Belfast streets during the celebration of the Orangemen's July festival.

Secretary of the Navy Daniels has changed the method of examinations for rear admirals, making them far less perfunctory.

Governor West of Oregon failed as a strike mediator in a stormy but fruitless conference between tannery strikers and employers.

Vincent Astor gave the first of his series of steamboat outings for the poor of New York when a chartered steamer carried 5000 tenement women and children for a day's outing.
